

THE ESSENTIAL WAY

Essential Caravans is a great Australia success story. The culmination of over 35 years hands on experience in the caravan industry in Australia.

Breaking the mould of traditional manufacturer based thinking, the thinking behind Essential Caravans comes from a dealer background, a customer service background, a listening and taking the time to learn from the customers instead of telling them background.

This is Essential Caravans promise to you.

Essential Caravans have embarked on a journey of designing, creating and building the best caravans in their class. Beautiful designs, fabulous and contemporary layouts. Only the best will find their way onto our production schedule.

Essential Caravans now more than ever understand the importance of satisfying customer's needs, our features are plentiful and our price is always affordable, combine this with a luxury caravan and the formula is a winning one in anyone's language.

Standard features such as battery management systems, including solar panels, filtered water, fully galvanised tunnel boots and hatches, full ovens, internal and external speakers, tropical rated fridges right down to one piece flooring systems and 100% waterproof showers are just some of the standard features you'll find in an Essential Caravan, features others call extras.

Truly our highly experienced team of builders, planners and industry experts have set the standard and raised the bar for all others to follow.

See for yourself at your nearest authorised Essential Caravans dealership.

We know you'll love an Essential Caravan just as much as we do.

OUR STORY

Hello and Welcome to Essential, my name is David Wilson and I am very proud to introduce our all new range of Essential Caravans. I can honestly say the entire range offers unheard of value for money and includes fixtures and fittings of the absolute highest standard. Standards you might normally expect to find in a caravan priced many thousands more.

Essential is a culmination of over 35 years' experience in the caravan industry.

Together with my experienced team of managers, builders, planner's and industry experts, I truly believe we are breaking the mould of what you would expect in a caravan in this price bracket.

At Essential Caravans we offer customer-based manufacturing and after sales service that only those with a Dealer background could understand and appreciate.

Far from a newcomer to the industry, I first started out as a caravan Service Manager some 22 years ago and learnt from the ground up what works and what doesn't work in a caravan. I also learnt the fact that customers want to be informed and included during the process, a lesson that is still adhered to today by all of my staff.

I then moved to Sales for several years and eventually became General Manager of a very large and successful caravan dealership.

On a personal level I am now fulfilling my life-long dream of building high quality vans at an affordable price. As a result, in a few short years, we have now grown to become one of the leading manufacturers in the country, which is something I'm very proud of and is a testament to our staff, sales teams and dealer network.

Designed with the most functional, attractive and comfortable layouts in mind, I'm sure you will enjoy many years of hassle-free caravanning across our beautiful country in your very own Essential Caravan.

Wishing you many happy travels.

David Wilson

OUR PARTNERS

We Only Use Trusted Leading Industry Products and Suppliers.

AL-KO BRAKES & AXLES

Globally recognized by caravanners around the world. AL-KO is recognised as the pioneer in the manufacturer of brakes and axles specifically designed for caravans and motor homes.

DOMETIC GROUP FRIDGES & AWNINGS

A leading international supplier of refrigerators, awnings, roof hatches, toilets and other premium comfort accessories for the caravan, motor home and RV market here in Australia and overseas.

THETFORD OVENS & COOKTOPS

A well established brand for over 40 years. A world market leader in refrigerators and cooking equipment to the RV industry. Thetford uses the highest quality materials and thoroughly tests each appliance to ensure its ultimate safety - and performance.

ATRV AUSSIE TRAVELLER

A 100% Australian owned company specializing in manufacturing and distributing products such as, awnings and annexes and other essential caravan and touring components.

MAKING ANYWHERE HOME

At Camec, we live to create outdoor comfort wherever the road may take you. With an online store, retail outlets and stockists across Australia and New Zealand, we have all the parts and accessories when, and where, you need them to make your RV and caravan experience feel just like home.

NCE ELECTRICAL TIMBERS AND WHITE GOODS

For over 25 years NCE has been supplying the RV industry with a range of timbers and electrical accessories. DesignRV have forged a strong business relationship, resulting in a range of innovations, custom products and exclusive options for our customers.
